NovaPoint Named to PSN Top Guns List of Best Performing Strategies for Q3 2026

Quarterly PSN Top Guns List published by YCharts identifies best-in-class separate accounts, managed accounts, and managed ETF strategies.

Atlanta, Georgia — November 18, 2026 — NovaPoint Capital announced today it has been named to the celebrated *PSN Top Guns List* of best performing separate accounts, managed accounts, and managed ETF strategies for Q3 2026. The highly anticipated list, published by YCharts, remains one of the most important references for investors and asset managers.

"On behalf of YCharts, congratulations to this quarter's PSN Top Guns winners as this is an achievement that reflects far more than a strong quarter, it reflects a sustained discipline that shows up consistently across market cycles," says President and CEO of YCharts, Sean Brown.

"These managers have built track records through genuine diligence and the unglamorous work of staying disciplined when it's tempting to chase headlines. That consistency is what truly sets them apart. Looking ahead, our enthusiasm for the SMA space has never been stronger. The caliber of skill reflected in this quarter's PSN Top Guns winners is a reminder of what disciplined, diligent management can achieve. We remain committed to helping advisors and investors connect with managers who bring that level of rigor to delivering real outcomes for their clients."

NovaPoint's Growth Equity strategy earned a PSN Top Guns for Q3 2026, ranking among the ten highest-returning strategies in the Large Cap Growth universe for the quarter.

Information Classification: General

“We are grateful to receive this recognition for our Growth Equity strategy,” said Joseph Sroka, NovaPoint’s co-founder and chief investment officer. “As one of our newer strategies, Growth Equity represents an expanding part of our investment offering, and we are pleased to see its early results recognized.”

Through a combination of PSN's proprietary performance screens, the PSN Top Guns awards products in six proprietary categories in over 75 universes based on continued performance over time.
